

Cine-Sation™

Cinema Effects Chair

MOVING IMAGE TECHNOLOGIES
YOUR DIGITAL CINEMA EXPERTS

AN IMMERSIVE EFFECTS EXPERIENCE... WITHOUT OVERWHELMING YOUR PATRONS OR YOUR POCKETBOOK!

OUR IMMERSIVE EFFECTS CINE-SATION CHAIRS ARE ENCODED TO THE STORYLINE NARRATIVE ALLOWING, WITH NO MECHANICAL MOVEMENT, A MORE DRAMATIC, SUBLIME MOVIE GOING EXPERIENCE.

A UNIQUE, CUSTOM EFFECT

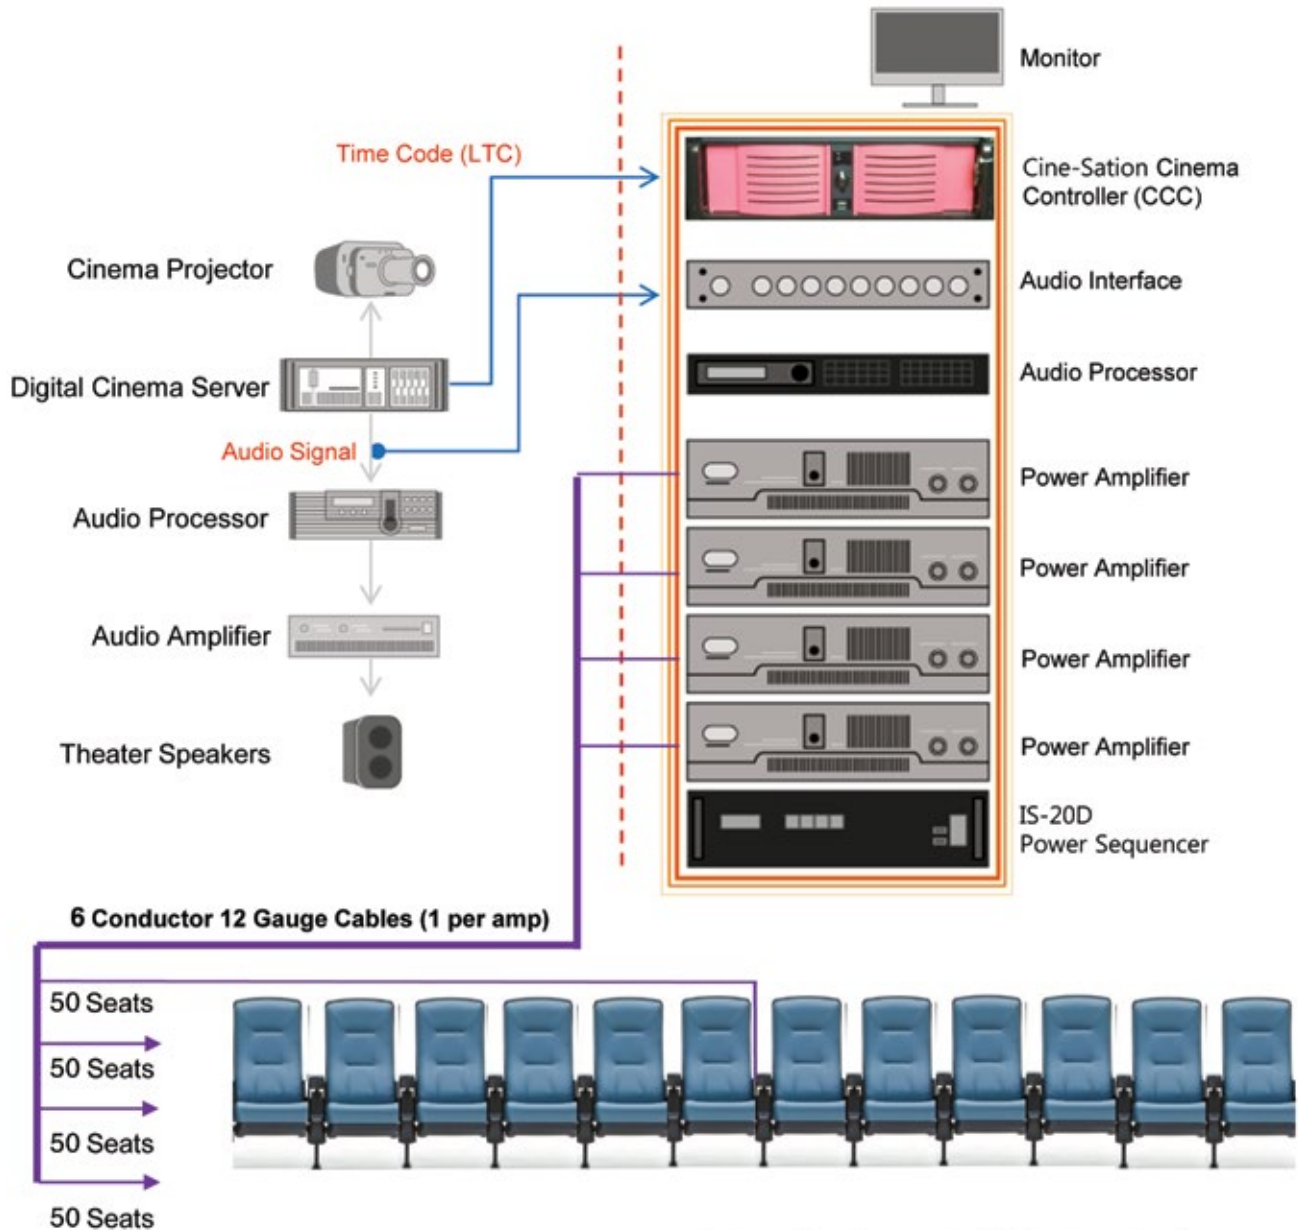

The Cine-Sation track is encoded at the Acouve laboratory in Burbank, CA with the original Studio content. We author the Cine-Sation track so that it emphasizes the impact of the feature storyline. The Cine-Sation Track is packaged in a small, encrypted file that is delivered to the location and loaded into the player. The playback is synchronized via timecode to the feature to provide accurate sensation in time with the feature.

Cine-Sation System

Existing Digital System

The Cine-Sation Cinema Controller is the main interface for the user. The CCC:

- Runs the software required to control and play back the Cine-Sation track.
- Is where the Cine-Sation Track is loaded.
- Controls the Audio Interface and Processing.

System Requirements (100 seat system)

- (3) 120VAC 20A circuits
- (50) seats per amplifier
- LTC Interface to Dolby, Doremi, GDC, Qube or USL media block. (Sync)
- Available Ethernet Port on your Management Network at the screen (Automation interface)
- Internet connection (Content delivery, monitoring)
