

S3042 Digital Cinema Projector Pedestal

The S3042 Projector pedestal is a new pedestal model specifically designed to maximize equipment rack space in a limited amount of volume. It's intended for integrating audio equipment into the same base with the other equipment, eliminating a separate audio rack.

Features:

- Powder coated, rugged steel frame
- 26 RU of equipment space available in two side-by-side bays.
- AC Power and signal knockouts on both front and rear sides, as well as access through the bottom center.
- Optimized to support Barco and NEC projectors
- Extendable legs adjustable for 30" height or 42" height (or in-between), plus leveling feet for fine adjustment.
- Lift-out screen panels with magnetic catches provide good ventilation plus fast and easy access to the non-operator and rear sides.
