

PDU (Power Distribution Unit)

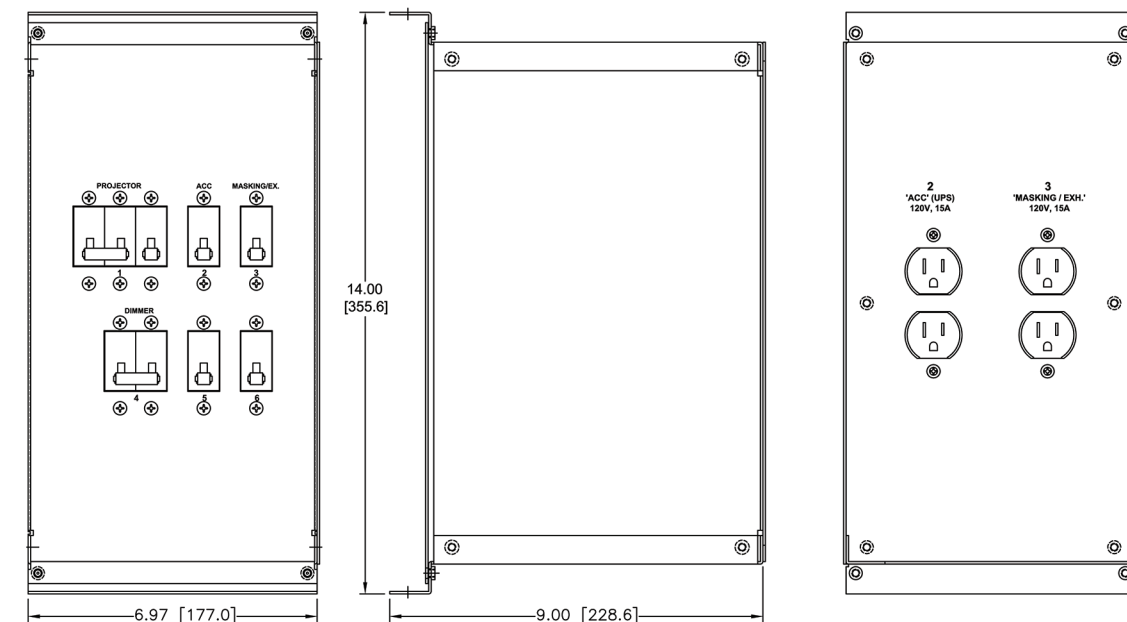

The MOVING iMAGE TECHNOLOGIES Power Distribution Unit (PDU) is optional with the MiT Digital Cinema Bases. It includes terminal blocks for terminating input AC power and output loads, as well as circuit breakers for the projector, server and other auditorium related devices. The PDU's flexibility allows a simple interface for repurposing existing cinema wiring during retrofits as well as a comprehensive distribution point for new Digital Cinema installations. The unit is certified and inspected to meet UL 60950.

Features:

- Circuit Breakers for:
 - Projector
 - Exhaust
 - Masking
 - Accessory
 - Spare
 - Dimmer
- North America and International Voltage versions available
- Approved to UL 60950 (bears ETL label)
- Duplex receptacles on the rear of the unit

Dimensions & Outline:

Electrical Requirements:

- 208VAC or 380VAC, 60A service

Part Numbers & Options

A000176-001	North America, 2 pole. 30A service
A000176-002	North America, 3 pole. 60A service
A000176-201	International, 2 pole. 30A service
A000176-202	International, 3 pole. 60A service
PE00035-015	Circuit Breaker, 1-pole, 15A
PE00035-020	Circuit Breaker, 1-pole, 20A
PE00364-015	Circuit Breaker, 2-pole, 15A
PE00364-020	Circuit Breaker, 2-pole, 20A
PE00364-030	Circuit Breaker, 2-pole, 30A vv
PE00037-030	Circuit Breaker, 3-pole, 30A
PE00037-035	Circuit Breaker, 3-pole, 35A

Mechanical:

Dimensions: 14.0"H x 9.0"W x 7.5"W
