## MovEsports GAMING SYSTEM

The **MovEsports XB30101** is a moveable Esports gaming system that makes Esports competition in cinemas easy and repeatable. The **MovEsports XB30101** system consists of seven **PLC01-XB** player cart systems and one **GMC01** Gamemaster cart. The lightweight **GMC01** and **PLC01-XB** carts create a sturdy, secure, and moveable gaming and production system that is designed to be easily relocated, stored, and most importantly easily interconnected to provide 3 vs 3 gameplay on the Xbox X platform.

Each **PLC01-XB** player cart system is equipped with an Xbox X console, 24" gaming monitor, audio/video capture device, and wireless headsets. The **PLC01-XB** includes a gaming chair with the necessary cabling to accommodate solo or competitive play. The **MovEsports GMC01** and **PLC01** are compatible for use with PC gaming platforms and all gaming consoles. An optional camera kit is available to put the gamer's image on the cinema screen for spectators to see. The **MovEsports PLC01** easily integrates with the **MovEsports GMC01**, bringing interactive gaming to life on the BIG screen in your local cinema.
